Website: [lpatucson.org](http://lpatucson.org)

La Paloma Academy is one of the fastest growing tuition-free public charter school districts in southern Arizona. Our schools and our parent organization are not-for-profit with a mission to provide the highest-quality education and help children achieve their full academic potential.

Our district strives to offer a well-rounded education to the children of Tucson and Arizona. As a charter school, our administration and teachers have more freedom with regard to curriculum and teaching style than is allowed in public schools. We take advantage of that by striking a balance between state and common core standards while also managing to provide a character-building and value-based education. La Paloma Academy is designed to deliver programs tailored to educational excellence and the needs of the communities we serve.

While we are funded by the state, grants and community donations, we rely heavily on the last. We encourage volunteers from the communities we serve, as well as the families that we serve. La Paloma asks parents to volunteer 10 hours per school year, and they can be a valuable resource for teachers and the district as a whole.

For La Paloma, collaboration is key. This can be seen in our pledge and the six pillars of character it is based on: trustworthiness, respect, caring, fairness, responsibility, and citizenship. With individualized instruction, based in these values, and delivered engagingly by our qualified teaching staff, we believe that together we are building solid foundations for every child.

La Paloma Academy Central was our first location in the city of Tucson. The school was founded in 2002 by Raena Janes, with the belief that all students can learn and that they learn best when able to actively engage and think with one another. The district began with 350 students at one site and now serves more than 1,900 students on three campuses across the Tucson metro area.

We continue to grow in this community and throughout Arizona because of our child- and education-centered foci. Through collaboration and cooperation, we can continue that trend and serve even more of Arizona's children.

La Paloma Academy Lakeside serves the east side of the city and has recently seen some amazing facility renovations to the gym, library and parking lot. Lakeside boasts a new multipurpose room and is going green with the addition of new solar panels to lighten up our campus' carbon footprint.

No matter which campus students attend, our academic and character-based curriculum remains consistent. Our program is built on six pillars of character that we strive to instill in our students and demonstrate as individuals and an organization. Being trustworthy is more than just about reliance; it is about being able to be relied upon or provide what is needed or right. It means we strive to deserve the trust and confidence people place in us. We are dependable.

Respect comes down to treating people the way you would want to be treated, as if everyone is someone important and should be regarded in an appropriate way. Fairness plays into this ideal. Behaving toward people in a way that does not favor one or some over others is deeply important in creating the kind of positive environment we strive for at La Paloma.

The pillar of caring moves hand-in-hand with the others, but it is more than consideration for the health and safety of our peers. It is an effort to do what is required of us correctly, safely, and without causing damage; keeping things in good condition. Which leads us to responsibility, a state associated not only with doing the duties and tasks required and expected of us, but also being the type of person that will stand up and claim our mistakes as well as our successes.

La Paloma Academy's South Campus is our newest location, near 12th Avenue and Drexel Road. In line with our mission, we established this location in an effort to bring quality education to the underserved student population of the city.

"When you're part of LPA anything is possible. The future is so bright. We truly care about our students, our employees, and the people that are associated with our schools. We care about each other. We will be there to pick each other up and put each other on our backs, and do whatever it takes to get the job done. Feel free to come talk to us at any point and time. We love solving problems. We have seen it. We have done it. We have an idea of how to fix about anything. So open, honest communication is what is necessary for us to be successful."

William Rubasch, Chief Operating Officer

La Paloma Academy Central was our first location in the city of Tucson. The school was founded in 2002 by Raena Janes, with the belief that all students can learn and that they learn best when able to actively engage and think with one another. The district began with 350 students at one site and now serves more than 1,900 students on three campuses across the Tucson metro area.

We continue to grow in this community and throughout Arizona because of our child- and education-centered foci. Through collaboration and cooperation, we can continue that trend and serve even more of Arizona's children.
